### 1. BAIN SULT AS

You are a long way  
Real low and slow  
You are a long way  
Feel the wrong way  
Be a sensitive love in the right way  
I'm lonely  
Fly away from me  
Feed me all the love way  
I catch myself indulging in the wrong way

Find yourself a magical rhythm  
And whisk it off away  
You cannot miss out on the system  
Come brighten up my day

I want more rhythm  
I some call dense  
Won't you be my rhythm  
If you will I promise I'll be nice  
I want more open  
I am amused  
Don't you have a feeling I am stupid  
Don't you feel you are as cold as ice

Find yourself a magical rhythm  
And whisk it off away  
You cannot miss out on the system  
Come brighten up my day

## 2. BOG

Cool iris  
Singular one in full got a right toe styling  
Shame miro  
Coming down in the shade of a drastic Nero  
Cool iris  
Eyes of abounding for beautiful color iris  
Can't hear you  
Laxatives into a session of pools of interest

Don't be so serious  
Try being absurd for once  
Or get out and enjoy the world  
Not every day has to be planned  
Nor does it have to fall just right in place  
You know, every once in a while  
Something that just pops up out of nowhere  
Is going to make you happy  
So just go with the flow girl  
Come on  
Don't take things so seriously  
Let's see a happy smile where there should be one

You simple  
Take and absconding smile and feel the sinus  
Be visual  
Breaking the back of a walrus that has a nasal  
Take samples  
Grinning with ego and fore you eat the marrow  
Homes leaving  
Picking like rows on a tempest now it's leaning

### 3. DAMHSA

Wake up Molly  
I sing for you  
Take wall a candy wall  
I wait for you  
Jesus coming  
Volcano  
Reason girl and all in all  
The pay's rote  
Well wake up Molly  
I'll sing for you  
Gee I come along  
A little being cruel  
Wake up Molly  
I'll be you  
Grievous in a wall of a halo

Right, go

Fast and minion  
You mean to me  
All go off and lonely  
Will you be to me  
Lazy inspired  
Forever be  
Mysteries of the love we have  
Can never be  
Oh wake up Molly  
I paid for you  
The boys are working up  
A sweeter sweat for you

Right, go

#### 4. FEILE

Get along you maidens  
Get along from steps of greetings  
Follow me with havens  
Following the steps of meanings  
Say goodbye to winter  
Say farewell to cold and freezing  
Step inside the summer  
Dance among the feet of fleetings

## 5. GAIRE

You lonely, you say I'm obscene  
You sprinkle the flowers with only times  
A sinister plan to be free  
Is all that I have for your interest here

Lead on you rolling  
Shame on for toiling  
Be sound and mystery lie  
Lead on you rolling

I wanted to see you be free  
I wanted to see you be happy now  
A dancer's life wasn't to be  
But rays of enjoyment are captured now

Lead on you rolling  
Shame on for toiling  
Be sound and mystery lie  
Lead on you rolling

Lead on you rolling  
Shame on for toiling  
Be sound and mystery lie  
Lead on you rolling

## 6. GRA

Well awakening  
Well alone in how  
I savor all the lonely times we've had  
Well a distant time  
Is the time we saved  
For the purpose of the majesty of grace  
All the lonely times  
Of holding on

Only you  
Wallowing  
In a form  
Of a dream  
Only you  
Wallowing  
In a form  
Of a dream

Well the levity  
Is a sense of past  
If I realize that a mission is far fast  
Catch another man  
In a cold of sense  
Kama Sutra then raise it's ugly head  
All lonely times  
Of holding on Only you  
Wallowing  
In a form  
Of a dream  
Only you  
Wallowing  
In a form  
Of a dream

## 7. LEIM

You picked a sunbeam witchy my woman  
You said that carousel would be mine  
Set a fine blaze for witchy my woman  
A tailored suit would not be blind

A soul to keep me laughing  
Soul of mirth for beaming  
Seas of calm for swimming  
You will always be divine

Grip my, go tease  
You find my race  
You golden timid like in Rome  
Grip my, in tease  
You find my knees  
You might can be another home

A woman never vixen smiling  
A season spring is in the air  
Said vixen, I like you cool mining  
Said simple, smell it in the air

A soul to keep me laughing  
Soul of mirth for beaming  
Seas of calm for swimming  
You will always be divine

Grip my, go tease  
You find my race  
You golden timid like in Rome  
Grip my, in tease  
You find my knees  
You might can be another home

## 8. MEISCE

Take it down slow  
Take it down fast  
Mind and reason all in the past  
Hit an old man  
Hit on all cylinders  
Dole all action down to the millimeters  
All all is  
In all around  
In all rocket fuel made from sand  
Really view  
Timely space  
Go all around what the governor sees

Maligned all in your hand  
Defining all you can  
Insist your mystery land

We king  
Festooned

Raise the spot  
Win the race  
Take such a sympathetic look of face  
Be not here  
Be not there  
Catch sympathetic for an old man's spear  
Hit my rails  
Hit my thing  
Dance on a catapult, walk on a swing  
Cry your eyes  
Smile in place  
Feel such a majesty sitting in space

Maligned all in your hand  
Defining all you can  
Insist your mystery land

We king  
Festooned

## 9. PAIRTI

Simple life in a golden way  
It's a golden life in a simple way

He haven't a care  
In a single day  
To feel a pressured life  
In a dimple swelling way

Simple life in a golden way  
It's a golden life in a simple way

He graze on a field  
The flowers in a way  
To total face of ours  
Into the day

## 10. SEINN

In my mind, in love this time  
In reasons my love, in reasons my love  
Door this time, forsaken in love  
Get my time, shake in faith  
In reasons my love, in reasons my love  
Shake it deep, I cannot see  
Get my time, cross that line  
Collision with age, collision it takes

I wanted to be  
An honest man  
A life to see  
A fairly dead pan  
Of a jubilee  
Oh I wanted to be  
With a coy enemy  
To live with a spring  
In a lively world see  
You always in need  
With walking to me  
I only revealed

In my mind, in love this time  
In reasons my love, in reasons my love  
Door this time, forsaken in love  
Get my time, shake in faith  
In reasons my love, in reasons my love

## 11. SHONA

Walk along the mill in the fireside  
Choose your ride in the hollow in the lion's eye  
Misery want to keep, lying down to keep  
Going down to all in the fireside  
Holy fireside  
Holy fireside

Reasons of interest  
Reasons of care  
Step all you interest  
Never to care  
I know the meaning  
Love is an end  
Reasons of interest  
Seminal end

See the modern games without misery  
Feel the love of good and the comfort there  
Can the big one stare into shallow air  
Take the bones of dust into the fireside  
Oh, to fireside  
Never to the fireside

Reasons of interest  
Reasons of care  
Step all you interest  
Never to care  
I know the meaning  
Love is an end  
Reasons of interest  
Seminal end

## 12. SPRAOI

Joy, life, sane

Distance find loving meaning  
To take the time away  
Another blessed day  
The water in the well isn't cleaning  
A smile breaks the way  
Another blessed day  
A gift of surprise isn't steaming  
Around another turn  
A simple crash and burn

I wallow in the simple mystery happy time  
I want to nothing sing  
Calling all to ring  
I cover all the mysteries of a memory time  
A different place to see  
A gracious joie de vivre

Distance find loving meaning  
To take the time away  
Another blessed day  
The water in the well isn't cleaning  
A smile breaks the way  
Another blessed day  
A gift of surprise isn't steaming  
Around another turn  
A simple crash and burn

I can't imagine life without you backing me  
The joy of follow you  
A day without a tear  
I cannot fathom living life without you  
A smile upon your ring  
A devastating song

Joy, life, sane
