

## DEEP LONG RAILS

### 1. BENIGN

Cool and crazy  
A mind is a fool  
Crave malinger  
Cry it a fool  
Crazy meddle why it a fool  
Crazy men of cry it a fool

Reach the enemy  
Why I'm a fool  
See impressions  
Why I'm a rue

## 2. CONCRETE FOR GLORY

In the modern day  
In the festival meantime  
In another way  
In a Mona Lisa  
In a modal way  
In a Mona Lisa  
It's a modern day  
And I see it coming

### 3. CONFISCATE

Keynote in the passenger  
Note I am a passenger  
Kimosabe was his name  
He grew old and lost the game

Danger finds his role in life  
Hit it with a straight edge knife  
Meet him at the door he said  
Lead him from there to the dead

Make it from a count of days  
Falling down another way  
Take my soul do gone the key  
Take it down and there too deep  
See it go around those ways  
See me go around in days  
Woe is me and woe is them  
Get upon upon another send

#### 4. ENSIGN

I want another message and I want it to be all of me  
I feel like a sinner and I never want to have to leave  
To blind if another one escapes from a simple word  
A talisman appears as if he heard the word

Such a lonely rain  
Such a lonely rain

Be raised, sick  
Be fired, sick  
Be strong, sick  
Be right, sick  
Be wrong, sick  
Be strong, sick

A simple situation doesn't come along to often now  
I've got my registration and it isn't written all in space  
The darkness of the level simmers like a cauldron in the way  
Solution found believing in a corner of the mind of stone

Such a lonely rain  
Such a lonely rain

Be raised, sick  
Be fired, sick  
Be strong, sick  
Be right, sick  
Be wrong, sick  
Be strong, sick

## 5. FALL OF DRAGONS

Rolling time, keeping grist  
Counting down, slit my wrist  
Beggars march, beggars paid  
Falling down, every stair  
Rolling ridge, rolling round  
Bowling ball, has no sound

Chemistry, has it's name  
Keep your faith, on your knees  
Do not fret, do not fear  
Someone will, be so near

## 6. FUELING

A grin, or two  
One laugh, not you  
No pain around me gain  
The wind, is blown  
To see the trees  
The lean on you begins  
Is it true  
Is it true  
Is it true

The way, relax  
Sit back, the facts  
Are said to be untrue  
Denied, meaning  
Decide to begin  
The notion of your pride  
Is it true  
Is it true

Rise upon the mystery stains of cavenaugh's of days  
Watch them float along the world and come on back on days  
You feel it's hours friend, but really it's been years  
You don't feel the aging coming, you don't see those fears

## 7. IMMENSE

Fools away  
Locked in time  
Rolling green  
Fall in time  
Rising well  
Rising free  
Holding down  
Holding me

Break my bones  
Steal my soul  
Deep long rails  
Take me home

## 8. MISER

Wallow in the California trees  
Find a space and never let it be  
Find a little wisdom in your mind  
Void the ones as simple as your kind

Shock  
And be a man

Wallow in the California trees  
Find a space and never let it be  
Find a little wisdom in your mind  
Void the ones as simple as your kind

Shock  
And be a man

## 9. SPICE

The beast of burden hollow  
People say there's nothing here  
Oh, roll the burden hollow  
You say it's nothing near  
Oh, I left my hand I'll follow  
Instead of staying here  
To see a sign of something  
To leave a life so dear

Reason, go with pain  
Challenge, all insane  
Reason, a fool in tow  
Saving, bowl in more

A find a simple traction  
Is not a simple thing  
A dusting of a faction  
A sprinkling of the rain  
To feel a beast of knowledge  
To fear a short demise  
A cataclysmic dismal  
A supplicant's surprise

Reason, go with pain  
Challenge, all insane  
Reason, a fool in tow  
Saving, bowl in more

## 10. TAILORED BEING

Don't see a rise of business  
Just feel a rise of hairs  
To cramp a feel of anger  
Don't feel the world of cares  
A simple strength of purpose  
A grating of the knees  
Do not fulfill the purpose  
To analyze my fears

Don't see a rise of business  
Just feel a rise of hairs  
To cramp a feel of anger  
Don't feel the world of cares  
A simple strength of purpose  
A grating of the knees  
Do not fulfill the purpose  
To analyze my fears

## 11. TEMPEST

Broken is wisdom  
Broken is still  
Rolling in a prison, sir  
Broken in soul

Terminal wisdom  
Broken of thought  
In deep desires  
Take back a lot

Get up, roll with it  
Get out of the way  
Get up, roll with it  
Get out of the way  
Get up, roll with it  
Get out of the way  
Get up, roll with it  
Get out of the way

## 12. UP THE RATCHET

Stupid is as stupid goes  
Follow men with platinum tongues  
Shining with the promise there  
Stupid is as stupid dare

Emerald eyes in heaven days  
Take another time away  
See it all with demon eyes  
See it with another's eyes

Never got a piece of right  
Say the sailor isn't nice  
Bald of love and bald of view  
Ball and chain reveal the true

See a feeling in the way  
Not a seeming rather blight  
Nothing else will satisfy  
Nothing but the same old lies
