

## GREY WAVE TSUNAMI

### 1. A CYNIC INDIFFERENCE

Didn't I find the world is full of snakes  
Bestial rudes and haven't you this way  
Culling out the monsters in this range  
Himalayan mountains swallow plains

Grab a common treasure it is fugue  
Gingerly you step inside the queue  
Make another holiday  
Feed upon the guilt that way  
Burning down the rabble  
That is you

Blasphemy indeed a sign of fate  
Corners turning into always hate  
Falling like an echo into pain  
Fever of the mystery comes again

Nero leaves us burning to the ground  
Thrusting of the dagger has no sound  
Trip to phone to keep us weak  
Prisoners the holy seek  
Quietly we drink another meal

Stop. Gather. Shake.

## 2. BJEEZUS

Feeling like a paradise  
Open to greed  
Call me a parasite  
Call out my name  
Shooting the stars from night  
Glowing from times  
Who lit the paradise  
Desert shiny lights

Take an ounce honored fool  
Take an ounce you can save  
Take an ounce falling down  
Take an ounce you are sin  
You are sin

Greedy

Feel the heat from paradise  
Enter to sin  
Lights collide with city vice  
Smothered with the skin  
Shoot straight from diamond mine  
Hold on to nerve  
Maze in a world of hype  
Steady in the burn

Take a chance honored fool  
Take a chance you can win  
Bitter heart falling down  
Take a chance you are sin  
You are sin

Greedy

### 3. BREATHING SYMPTOMS

Lily killing of the beast  
Nearly see it in the sky  
Woolen view I seek relief  
Fortunate and you have eye

Say this wrong

Red and yellow empty feast  
Shake it down for all to see  
Seeking shelter in the rain storms  
Really know that they are greased

Slip the knife in the  
Holding into  
Is indeed yes I  
Going into  
Every caught in due  
Calling into  
Jesus ain't due  
Going into

Nearly followed in the sand  
Nearly swallowed in the sea  
It's the policy of tricks  
It's the politics of man

It is wrong  
Say this wrong

Enter spaces in my mind  
Genuflect a better fee  
Save my swords and bayonets dear  
Really prayed for my release

Slip the knife in the  
Holding into  
Is indeed yes I  
Going into  
Every caught in due  
Calling into  
Jesus ain't due  
Going into

Get a step in brain

#### 4. CASTE OF EMPATHY

Beat alliance  
Seething gone  
Your pyro blessed nothing in that song  
Based on reason teeming cum

Take a knife sharp as a night

Get desire  
Fall into the legions of them  
Oh with temper  
Was above the cross there  
Hole in deeper  
All inside you passions

Teeming and firing  
Bathing black  
Exploring the broad texture of torture  
Calling a deeper, meaner soul

Take a knife sharp as a night

Get desire  
Cross the path of languid bodies  
Find a mission  
Find the wall that blocks an ego  
Gage an impact  
Creep along the lost horizons

False collision  
Grey of purpose  
Rising the dark fortune seeks action  
Messages from cheapened, fearful men

Take a knife sharp as a night

## 5. CRYING ALONE

I find myself in grief  
I'm calling out your face  
Only now the enter pity  
From lying in the rain  
The sweetness in the corners of the darkness in a wave  
So cold among the warmth  
I'm calling out for peace

Drive a force a cantor sings your name  
God inside this night it's not the same  
Cage of simple passions crowd the source of light  
Tied up to a bullet shot from scattered rage

The vision never came  
Of lovers in release  
Holding on a faded story  
Lies buried in the pain  
So tender was the touch of never  
The promise never came  
The stillness of a love forever  
Has found my heart again

## 6. GREENLAND

Mood in Greenland and I miss you  
Really believed the nurtured way  
All I found was walls of ice  
All I feel is empty day

Holy cold

Reaching  
Going home

World of Greenland space of no redemption  
Dressed in hollow naked all the time  
Dream the isolation sound of winter  
Dream the shores collecting through the ice

Holy cold

Reaching  
Going home

## 7. HEARTS CROSSED BACKWARDS

Drag the mastodon it's not there in several pieces  
Catch another fallen down from holidays in pieces  
Feelings tear when it came down there  
Ready to stare at the bodies laying in pieces  
Tear comes there's nothing wrong with either one but pieces

Drag on

Reaching in the time

In the penance  
In the mind  
In the vision  
In the knife  
In religion  
It is swim  
Incapable  
Hidden room  
Hidden meaning  
Hidden times  
Hidden reason

## 8. LOOSE GRIP

You say that you want in the vault

I can see it

Don't worry and you won't have this suance

I can feel it

Can use a maiden fallen into beast

I can feel it

Beast of entry

Find another way

You say that blood doesn't follow you

I will drink it

Interpretation of matter and mind

I can steal it

The force of being untied from a trap

I can cheat it

Beast of entry

Find another way

## 9. PAST INCURSIONS

You wasted nothing time to hold  
You is indeed a time to home  
Season with iron in the tea  
Stretch out in fallen day  
You seized betrayal then when

Indeed I cannot reason  
Feeding the sounds of revolution  
Be still and look at him go easy

You studied well your sacred peace  
And then it shattered like a dream  
To let it fade into release  
But never buried there  
It's just asleep and grey

Indeed I cannot reason  
They call from catacombs of anger  
A scent of holding on to ego

Catch my phrases that I spit out like used tissue  
Far flung and meaningless words of useless abound  
Tripping on the scattered rubbish that was laid there before  
Piles of useless apologies followed by devious actions both sides

Burn, burn, burn

You wasted nothing time to hold  
You is indeed a time to home  
Season with iron in the tea

## 10. SHRINK

With shadow eye there a singular  
Fortunes cut that wire in a rage  
She said that I cannot see it there  
Portrait of a dead blind hate  
A lot in times  
A hungry time  
She said stop the decision there  
Portrait of my name

Once upon a time it was insanity  
Growing with the symmetry of drones  
Everyone is coming to the saddest field  
Hidden in the power of the ruse  
Crazy comes upon him to dishonor's eve  
Leaves him on the sinner's open reel  
Lay down empty days in the rivers there  
Lay down the night in empty rooms

A look of crime rides across his face  
Many lives to live forever one  
Deeper sea for all who stalk the innocent  
Terrified of loving anyone  
A mannered rail  
A sudden pale  
In a dark corner a single weep  
Portrait of my name

Once upon a time it was insanity  
Growing with the symmetry of drones  
Everyone is coming to the saddest field  
Hidden in the power of the ruse  
Crazy comes upon him to dishonor's eve  
Leaves him on the sinner's open reel  
Lay down empty days in the rivers there  
Lay down the night in empty rooms

## 11. TELLING STONE

Priests and holy men violate  
Say that I won't have open dreams  
See the bullet there, I'll be free  
Phrase upon his brow still he waits

Oh Elijah look inside

Here come the saints  
You find it's well  
They live as cheats  
You find it's well  
Continuation  
You find it's well  
Can't witness dawning of disease  
You find it's well  
You saints

The shroud of dignity pulled away  
Intimidation as biased word  
The ship of tithing in open deep  
Give up your evil home night to day

Oh Elijah look inside

Here come the saints  
You find it's well  
They live as cheats  
You find it's well  
Continuation  
You find it's well  
Can't witness dawning of disease  
You find it's well  
You saints

## 12. THE ANGRY CREST

Sharp as a tack and piercing into mysteries  
Kiss me like a lizard who's hunting  
Cold and frown your face is freezing  
All you see is a daze of histories  
Crusades of pleasure maul it  
Come here and feel my isolation  
Take arms against the revolution  
My time is indecisions  
You lose indeed I'm calling  
Unjust is not a reason  
Observe my fallen talent  
We've kept this broken moment  
To be a gliding tower  
To find the blanket entries  
To know it's something you did

Force of entry  
Gables

Born from a slap and festered in a monster  
You are slain and I have license  
Way way down in the cellars of the beast  
The rise of sword above you  
I see those dreams of falling  
I see them rise from torture  
I see the velvet anger  
I see the cries of helpless  
I see the pupils widen  
I see the lips are cursing  
I see the hated climax

### 13. TIDAL

In der letzten Zeit fielen sie  
schmutzig auf dem Boden steigenden  
Kämpfen mit verbrannte Gefühle  
nicht erreichen aber das kollabieren  
und Weinen bis zu den Wolken

Until to rising  
Until to fate  
To build horizons  
To build our fate

Motionless encroaches  
Into leaving

Unsere Sterblichkeit steigt jeden Tag  
Kriechen bis direkt vor uns, die  
wir noch nicht sehen, Sie kommen  
schneller Es greift als die Nächte vergeht  
schließlich Überwindung uns in Unkenntnis

Until to rising  
Until to fate  
To build horizons  
To build our fate

Motionless encroaches  
Into leaving

#### 14. WONDERING VIVID

I can't believe that there is nothing for you  
And haven't it sent  
But then again it's not what you want it to be  
Cloves now abound in the wisdom of hounds in the reason  
In a simple thing  
Just a simple thing

Get along wonderers  
Get a little every time

I meant to say that even though  
None of those merchants peddles any lost dreams there  
A silence comes  
And then we both feel like scapegoats in tranquility

In a simple thing  
Just a simple thing

## 15. WORST METHOD REMAINS

This fallen dice  
It's not a game  
The strong man dies  
Another day  
To say that choose  
In a flirt  
To give your life  
Sniff and gone

You fell into pieces  
You crawl into spaces  
You crawl into this is why

It gives me grief  
It shuts me down to the ground  
To say religion  
I cannot see on the ground  
Fall into pillars  
Fall into strength on the ground  
Born into slavery  
Born into hollow ground

This potter's field  
This place of rest  
This quiet earth  
Is not at peace  
And fallen arms  
In final dust  
Will resurrect  
Within the air

You fell into pieces  
You crawl into spaces  
You crawl into this is why

The deterioration of the elementary particle  
The deterioration of the atom  
The deterioration of the molecule  
The deterioration of the cell  
The deterioration of the organism  
The deterioration of thought  
The deterioration of an incident between two organisms  
The deterioration of a relationship  
The deterioration of a society  
The deterioration of civilization  
The deterioration of life  
The deterioration of the earth  
The deterioration of the universe

And so does God die?
