

## THE GLEAMING LIGHT OF SABER'S HEIR

### 1. FILIBUSTROUS

Reach around the colors in the calendar  
Summer's in the night time in the radio  
Feeling now another side of calipers  
I feel like another wall has quartered in  
Isn't it a bit like me and you  
Isn't it a bit like me and you

Someone's taken all the trains and calendars  
Fortunate to be a night with you  
Someone left the reasoning just pass away  
Someone left the reasoning with you  
Isn't it a bit like me and you  
Isn't it a bit like me and you

I follow in a sense of all the old fools  
I know our lives will face a jury of our peers  
I follow in a sense of hollow living trees  
Another life of naked juries that will be

## 2. FUSILISTIC

All invaders I'll get a sick brain  
Falling down sideways in a catatonic haze  
You will get them out of here in time  
Everybody's singing my apologetic mind

Another dagger sets it, I had another hate  
Rolling down the highway of a bitter bitter taste  
You see a mystery, you see a blood  
Melancholy majesty and two by two in flood

All invaders of kinesetic brain  
Take a lesson from the man who hung above the pain  
I'm a human petrie dish, experiments are made  
See if all the insects run to mothers in the way

Down inside the catacombs the livers and the flies  
Telling stories of a band that's made up just of lies  
Deep into the jungle the berry berry lives  
At least that's what I call it, no one else can see it there

### 3. GANGRENATION

Why don't you explain the rationale of  
All these people looking into me  
Touching me

Probing inside every corner of the  
Room where spiders own my  
Chemistry, sympathy, destiny, fall on me

Waving at my liberty  
I cannot see the end of life  
Examining the mysteries of my brain  
Seventeen I was a freaker  
Twenty one an empty beaker  
Look what you have done to silence me  
Running from a cage of puncture  
Pulling out the lazy semen  
Interesting to watch but not to feel

Why don't you get down to Jesus  
Ripping from the cross in anger  
Touching me, stripping me, healing me, evil me

Feel the skin now fall away as  
Inner flesh appears upon the  
Sticky knife, happy knife, shiny knife, bloody knife

Waving at my liberty  
I cannot see the end of life  
Examining the mysteries of my brain  
Seventeen I was a freaker  
Twenty one an empty beaker  
Look what you have done to silence me  
Running from a cage of puncture  
Pulling out the lazy semen  
Interesting to watch but not to feel

#### 4. HAMMERSTON

Judas Iscariot  
Mine is his plan  
Words of mine defile  
Holding out to gain  
Shooting in the light  
Fall in the passed  
Drinking all the water there  
Saving me won't last

Turning round the corner now to ancient games  
Listening to streams of night they sound the same  
Watch the cold horizon falling into sea  
Waiting for the rise of orbs our canon leaves

Judas Iscariot  
Ponders on his plan  
Lending down to fire upon  
Wasted barren land  
Shivering in a rise  
Whole is a man  
Taken from the temples of  
A futuristic plan

Turning round the corner now to ancient games  
Listening to streams of night they sound the same  
Watch the cold horizon falling into sea  
Waiting for the rise of orbs our canon leaves

## 5. INCREDICIOUS

You will see a message waiting corner of my mind  
Dream of covered walls of holy all of them are mine  
Reach around a covered corner anabolic trick  
Just in time for you to see that I am just a dick

Only Jews are singing cause the railroad cars are down  
Going into chambers of the hazard of remains

One of them was everywhere and then they sang to me  
Said that they were wealth and then they opened up to me  
Cross a river with a rotten moss upon the ground  
Voices calling voices shouting voices all around

Holding down the maddened man upon the ground to bear  
Hold the walls upon the shoulders throw them in the air

Peace of night will come all shining stars will flicker lame  
All the walls are fumbling down and nothing is the same  
Ride a winter voice is calling on the blocks and stones  
I can hear the message that you never will not know

## 6. INSIPIOSITY

They don't like it, I don't care  
They don't listen, never never never never  
They don't like it, I don't care  
Don't take pills here, never never never never  
They don't like me, I don't care  
Do not tell them, never never never never  
They don't like me, I don't care  
Please be social, never never never never

She don't like it, I don't care  
Don't stop talking, ever ever ever ever  
She don't like me, I don't care  
I don't sleep now, never ever ever ever  
She don't like it, I don't care  
Push her buttons, push it, push it, push it, push it  
She don't like me, I don't care  
I can leave her, ever ever ever every day

I don't like it, they don't care  
They don't trust me, do they, do they, do they, do they  
I don't like it, they don't care  
I don't pay them, any, any, any, any  
I don't like it, they don't care  
They just leave me, any, any, any, any  
I don't like it, they don't care  
They just leave me, any, any, any, anyway

## 7. MALNESS

I'm not the same as you  
Burn down going true and true  
Find yourself another reason  
Pigs and corners tell a story true  
Climb the walls to hang the ceiling  
With one finger pointed straight at you  
Gaia falls with guilty pleasures  
Strains to get from bend and trap and two

Getting psalms as silent sweet cons  
And it calling down a common sound  
And I saw the walls crashing down upon me  
Go down, go down my friend  
Everyone goes down to the end  
It does bow to the end

Can't distance all the labors  
Of a man with voices calling in  
Wrapped around a wooden basket  
Similar to Oceanus true  
Taken from abodes of earth  
Intercourse with fishes out of blue  
Hesiod told entire story  
Now I hear it every day it's true

Find beats among the contracts of men at arms  
Find contracts among those who sit and watch you go  
Find those who watch you go and sit around  
And do nothing  
Find those who are afraid to approach  
Who are afraid to stay

## 8. MISGUIDANT

In those relevant days  
I was a monster  
In those relevant days  
I was a misguidant  
You will see face  
And talking in voices  
Hear them go to say  
I hear voices  
Speaking to me then  
In a stolen way  
A sociopath  
Golden the way  
I hear voices

## 9. SUBURBOPOLIS

Have a sense that I explode to pieces  
Shake it up and fall back down to earth  
Body parts are nothing but erasers  
Filling cups of wine from empty hands

Why don't you ground down to scents?  
I don't have a following  
I just need to fall back down to earth

You won't let me go

This disease is coming out from calendars  
This disease has fallen down to me  
This disease is coming down inside of pairs  
This disease the gleaming light of saber's heir

This disease is coming out from calendars  
This disease has fallen down to me  
This disease is coming down inside of pairs  
This disease the gleaming light of saber's heir

You won't let me go

## 10. TESTAMENTAL

Gristle times  
Of abilities  
Saving time  
I see a man  
Walls to climb  
Inside my head  
Reasoning  
Fortell is dead  
Deafening  
The symmetry  
All enclosed  
I challenge heed

It's an ancient calling my name  
It's a mind of  
Total recall

Wonder sense  
Of wonder love  
Secadance  
It sees a man  
Climbing walls  
In symmetry  
Rubber tanks  
Of registry  
Take the head  
And take a nail  
Drive it in  
Then to the name

It's an ancient calling my name  
It's a mind of  
Total recall

## 11. TRANSPARENTING

Listen to the listen  
They're calling down to me, calling down to me  
World will reveal  
They're calling down to me, calling down to me  
Wind it in the cyst  
They're calling down to me, calling down to me  
Find it in the shadows  
They're calling down to me, calling down to me

Fool in divisions  
They're calling down to me, calling down to me  
Rolling indecisions  
They're calling down to me, calling down to me  
All can't take it all the lizards, all can't take it all the lizards  
They're calling down to me, calling down to me  
Rolling lists  
They're calling down to me, calling down to me

Desperate walls that come to see  
You paint the fingers as they try  
To comfort inside shells of  
Gestures made to placate demon whispers  
Of a shiny metal place  
Upon the gathering vessel of a  
Liquid monster having all his  
Breaking concert never said those things

Coming here to visit  
They're calling down to me, calling down to me  
Steel emotions  
They're calling down to me, calling down to me  
Bowling in a muddy lane the ball goes down a dusty chain  
They're calling down to me, calling down to me  
Holding on to syntax as a symbol of my sanity  
They're calling down to me, calling down to me
