

# HELIOS PRETENDING BENIGN

## 1. AEOS

Alone in the sensible intents  
Alone in a virus in the sun  
Holding lies  
In the sun  
Get you there  
Everyone

Alone in a sense of giving heart  
Alone in a sense of every time  
Going down  
See the rage  
Of the vile  
On the page

A safe side  
Can I see a safe side  
A mind blown  
Have I got a mind blown

Alone if you see the summer come  
If I die in another second won  
Go in time  
Take your place  
See the fires  
Human race

Alone fixing up a shattered me  
Contain innocence in every way  
Going down  
See my face  
You will cry  
In this place

A safe side  
Can I see a safe side  
A mind blown  
Have I got a mind blown

## 2. AETHON

Heaven isn't there  
I'm fooled again, I'm reaching out  
No one really cares  
I haven't got a vision of

Heaven isn't there  
My soul is all in need  
Hollow in the ever night  
Haven't ever seen

Heaven isn't there  
I dream of not to care  
Hell is never what it seems  
It leaves behind the silver things in life

Heaven isn't there  
With all the losing preachers now  
It's empty and it's bare  
I haven't found the key to open

Heaven isn't there  
The soul of broken deeds  
The simple life of every man  
Is broken at the seams

Heaven isn't there  
A policy of simple times  
Caught up in the air of breathing  
Throw against the wall

### 3. DIOXIPPE

A happiness isn't  
It rolls in a garden  
Of roses in common with misery

A rose is just common  
But you say it isn't  
It doesn't imagine of all disease

A fold in the night  
Is a roll so uncommon  
With sensitive holding I feel the breeze

It's said that it's coming  
Let everyone stopping  
In sensitive anger come to me please

A whiff of the time is  
A natural occurrence  
To stabilize missions of lovely days

You find that it's falling  
Into simple kindness  
It shows that a face is not smiling there

I find myself crawling  
Along in a summer  
Where roses are growing alongside the man

#### 4. HELIA

With the batteries in the prisons  
I rose in the vein of a simple tone  
Well the seminal life of murder  
Revision, revulsion, and all in vain

I can see from another prison  
I'm leaving it all and the mortal pain  
Oh the batteries have no voltage  
They're stagnant like olden days come again

Going down the wider space of pain  
Going down to wider space hurrah

I'm ashamed of another wisdom  
I fall out, I cut out along the sea  
When I wallow among the willows  
They're reaching their arms out all over me

Well I know that you don't have loving  
For waiting for me to stay again  
And there nothing is but nothing  
To temper the patience of hollow words

In the pools of gold I will not love those things  
In the fools of gold it might not want these things

Going down the wider space of pain  
Going down to wider space hurrah

All is night and all is falling

## 5. HELIADES

Heaven isn't easily  
Holding the wiser man  
Heaven isn't easily  
Cold for the bitter man  
Only down to easily  
Ever thought I was that man

Reaching for a simple place  
Not at once a word of greed  
Reaching for a life of ease  
Always farther than I grab  
Only simple majesty  
Kneel in front of mystery

Heaven isn't magic here  
Gleaming with a thunder sound  
Heaven hasn't reappeared  
Saving all the maddened crowd  
Stealing with antipathy  
They appear inside my head

## 6. MEROPE

Beast of taste, beast of mind  
Gold intent until I have no time  
Going round with a convert shield  
Nothing wrong when a man don't feel

Feast of men, feast of time  
Going down with a happening sign  
Average day, average life  
Syncopated with a carving knife

Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon, have no cinnamon  
Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon

Take one word, write it down  
Take the Seminole and make him clown  
Right the ship in the sea  
Falling down with a collard green

Feel the door closing in  
Kind of curtains with the anthill thin  
Nice in fall, nice I see  
No more words insert to be

Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon, have no cinnamon  
Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon

Here go more words from me  
Scent the song with a life to be  
Dirty nails, dirty hair  
Dirty syncopation over here

Reach the end running out of time  
I don't know but a desperate mind  
Then we'll find later on  
All the right words' colors gone

Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon, have no cinnamon  
Beast of cinnamon, pounds of cinnamon  
Feast of cinnamon

## 7. PHAETON

Ripped in time you starved child  
They've got to save you from your name  
Ripped in time you starved God  
Cooling all their jealousies  
Ripped in time mistaken  
Why aren't you becoming free  
Ripped in time a snatch of  
Feeding all the wretched men

Ripped in time nostalgia  
Looking in the face of grace  
Ripped in time a hand job  
Feeling all the Caliph's needs  
Ripped in time mistaken  
Why don't you become a me  
Ripped in time nostalgia  
Coming down to wasted days

Ripped in time you starved child  
They've got to save you from your name  
Ripped in time you starved God  
Cooling all their jealousies  
Ripped in time mistaken  
Why aren't you becoming free  
Ripped in time a snatch of  
Feeding all the wretched men

## 8. PHLEGON

Night with a bullet down  
I seal the round into the chamber  
Life is a happenstance  
A good defense, a hole in a window  
You lie with another man  
I shouldn't care, your blacker intentions  
Call it a newer life  
I'm slowing down, I go to the window

Oh in another state  
Another past, find out another  
Home in another place  
I know it comes upon us whether  
Oh and another face  
It doesn't melt the necessary evil  
Oh in another space  
It's blowing down the doors of a heaven

Like enough another ending name  
Lighting up the ever ending game  
Do you see the shadows of this pain  
Like enough another ending game  
Again, again, again, again, again a lonely man

Oh in a lonely place  
Another state, kind of a symptom  
Oh and I see the light  
Of nothing come here now to greet me  
Oh in another way  
You've made your case, your reasons for staying  
Oh but I've made my choice  
To end this life, careless and simple

Like enough another ending name  
Lighting up the ever ending game  
Do you see the shadows of this pain  
Like enough another ending game  
Again, again, again, again, again a lonely man

## 9. PHOEBE

The simple time of year is turning into rain  
Falling down imaginary, falling down again  
All worn down with swollen whispers, nothing is inside  
Caught up in a mass of memories tearing me inside  
All the fiery signals wave in the bastard life  
Pushing on a head of impulse, pushing on my time

I hear the toxic voices enter deep inside my head  
Gracious lives above my meadows laughing there at me  
Feel a haunting limerick and see a scattered man  
Totaling the debits up until they're filled with sand  
And now the time has come for me to bid this land goodbye  
Leaving on the stage today into the Western sky

## 10. PYROIS

It's not the same if the wheel of fortune comes to me  
Follow game I never see you holding me

Life is never ending  
Life is never ending  
Life is never ending  
Life will never end for me

Round the end I see a life in heavenly  
Rather there for liberty and solitude

Life is never ending  
Life is never ending  
Life is never ending  
Life will never end for me

## 11. SURYA

I went down to find that place  
Calling the mind is not there  
I'm going to find a place  
Hiding with clouds in the air  
You say it's devoid of space  
That's what it seems like in here  
Can't find me another place  
To breathe in is too much to bear

Having your mind in that place  
Kiss in your face, kiss in your face

I'm hearing them call out to me  
Out of a dysentery land  
I'm heeding that call from beyond  
Running to hear your call  
Hear your call

Having your mind in that place  
Kiss in your face, kiss in your face

## 12. USIL

Wrapped around the corners in a silly panic haze  
You can see the numbers as they fall upon your grave  
Nothing is in heaven now and something isn't right  
Nothing isn't there upon an effervescent light

Listen all you people who are cutting all your veins  
What did you expect to find when all your life is drained  
You can see the misery as it falls upon your head  
You can feel the hammer anvil breaking down upon the dead

Feeling all alone and it's a seminal living  
Shaking all the knowledge of a passing all the living  
Feeling all alone and it's a seminal living

Ripped all worse in a molly coddled image  
I can see the bodies of the widows  
Every time it starts again, every time it stalls  
You can see the misery as it comes along the pall

Shapes of death, shapes of innocence  
I can see upon another corner reticence  
Don't stop now, don't stop here  
Finish what you started, the next night you'll appear

Feeling all alone and it's a seminal living  
Shaking all the knowledge of a passing all the living  
Feeling all alone and it's a seminal living
