

## SHARDS

### 1. AMMO

Going down and I think I see a fable  
Reason now and I'm not averse to able  
Fighting storm and a hope now is not coming  
Waves they crash overboard to something running

For a sinner begins  
Choose the right or the end  
Got the time to grow old  
Got to empty the fold  
Feel a rush of denial  
That the ones I defile

For a sinner begins  
Choose the right or the end  
Got the time to grow old  
Got to empty the fold  
Feel a rush of denial  
That the ones I defile

## 2. CLUB FOOT

Step up to the minstrel, get inside of him  
Fires in a raindrop start, get acidic thin  
Grab a mystic teacher, slave to when it's dark  
Mind yourself you manage all, tendencies at dark

Graves you was a mister, whiter than the sun  
Going down the river, see it have some fun  
Rolling round the simplest, going down the wall  
Rolling down the river, rolling down the wall

Breathe it all in nicely, exhale with a prince  
Stately image brings upon, salutary fish  
Mesmerizing carnivore, waits to eat my flesh  
Can't you love me anymore, can't you guess my taste

### 3. CRAZY TOUCH

Reach around the road, I haven't got a lonely way  
Reach around the parts, sweet and equal is the day  
Reach around the sky, I haven't found a reason why  
Reach around the road, nothing but a singular today

Stepping out of here, see my life flash before me  
I don't even care, nothing phases in my glory  
Reach around the bars, sweet and equal is the day  
Reach around the sky, I have not found a reason why

In a world, innocence  
Find a time in a space  
You don't know what it means  
To be gone, to be seen  
Faster now, lower still  
Find a time, in a face  
In a world, in a fall  
See the end of it all

Step in front of train, mystics teach that nothing matters  
Bothered not by rain, instigate a river flooding  
Step in front of train, fear is not the lexicon of  
Having not to hear, pleas of anger not defying love

Find another place, accidental loss is captive  
Find another space, asteroids will bounce from matter  
Reach around the road, having symptoms of an anger  
Reach around a soul, distance from a love that likes to please

#### 4. FADING

Symbol of the peace  
Crazy world of vice  
Who'd have known the golden arm  
Have a splendid time  
We can see the tryst  
Writing on the wall  
Golden on the peace of mind  
Waiting for the fall

We will not assist  
Woe is all to me  
Save a lot of time  
Come on down to see

Withered wisdom came  
Bathe in olive oil  
Frankincense and myrrh  
Growing from the soil  
Sheba was her name  
Born in olden time  
Heroes are the same  
Fractured in the mind

## 5. GLIB

Greater rest, greater time  
Greater means, greater rhyme  
Sing hymns  
Greater men, greater loss  
Greater speed, going to crash  
Spin me

Live right  
Glib for  
Glib wide  
Glib for  
Glib white  
Glib for  
Glib white  
Glib for

Do your best, all the time  
Ride a horse, in a rhyme  
You see  
You will light, in a kind  
Shiny armor, shiny time  
For see

Live right  
Glib for  
Glib wide  
Glib for  
Glib white  
Glib for  
Glib white  
Glib for

Greater rest, greater time  
Greater means, greater rhyme  
Sing high  
Greater when, less a loss  
Greater glib, going to floss  
Spin time

## 6. LACONIC

Into the light of sight, heaven sent  
Bullet in it's time, heaven sent  
Oh live and sent from me  
Reach upon the sea  
Imagine darkness soon  
Heaven sent

Go down in my friend  
See the boxes there  
See the passage end  
I never be  
Rolling down in lines  
A grotesque there  
See a mountain end  
Heaven sent

A whole new life  
Heaven sent in time  
A whole new life  
Heaven sent in time

See the cool crisp air, heaven sent  
A bullet in the air, heaven sent  
Cast into the dark  
Waiting as the mark  
Take a trip today  
It's heaven sent

Looking into view, it's heaven sent  
Bargain me and you, it's heaven sent  
Deal done today  
Never go to play  
With the boys out there  
I'm heaven sent

A whole new life  
Heaven sent in time  
A whole new life  
Heaven sent in time

## 7. RESIST

Cradle of the world's apologies  
Don't you know that you're the one who caused it  
Seizing death like love in a disease  
Don't you know that we can always stop it

Monsters live among us all the time  
Cowards die where we resist their hatred  
Moving forward moving for sublime  
Listening to voices, we're berated

## 8. SHARDS

Get along now full of vice  
Now coming on the face  
You don't see the message  
And the mind of fallen face  
Follow in the footsteps  
Of a single human race  
If you don't, the scars will come  
And then you'll see a face  
Bowling down the river green  
And full of fallen hair  
Bowling down the Columbines  
And all the fallen hair  
You will gather fleece

You go down  
You will feel  
Going down round  
You don't feel  
You going round

Going down the sinners end  
Going down the round

## 9. SINKHOLE

Open the windows  
Let in the fire  
See when the wind blows  
Fanning them higher  
Don't you see me  
I won't let you in  
Don't you feel me  
Only the fires can

Do the records  
Of life  
Show a face now  
In life  
You cannot now  
No entrance there  
You can see me  
No one cares

Open the windows  
See my face  
Don't you know me  
From this place  
You can feel it  
Slipping away  
You can't see me  
In this place

Do the records  
Of life  
Show a face now  
In life  
You cannot now  
No entrance there  
You can see me  
No one cares

## 10. STRIKE

I have the patience of a down landed scopes  
Evolution  
Reservations in the world resist  
Kama Sutra  
Waiting for another past life tense  
Resurrection  
Petty lives are lost but nothing gained  
From the mayhem

Worried in my mind is  
Golden in a victory  
Shame on us for killing children  
Reservations in a manger  
Instigate a pleasure  
Killing is a torture  
Civilian population  
Part of every feeding

To see the actions of a blood fueled peasantry  
At a crossroads  
Sympathetic to a blinding shrapnel  
It's a mind fuck  
Cannons blazing in a white hot mischief  
As you call it  
Concentration camps are built by cynics  
With a head fuck
