

## SUPINE LOCK

### 1. CREEPS

I follow tunes  
I got a rate defined  
You follow me down, let it doom  
I gotta raver find  
You got a razor find do too  
You got a razor find do too

You gotta life  
You gotta raise in time  
You gotta brain  
You use your brain in time  
I got a rain in time with you  
I got a single thing to do

I gotta sign  
You follow them I see  
Silver mine is what I do  
It's not the same you see  
You got a razor fine you too  
You got a razor fine you too

You got a life  
I want a life with you  
You need to carry me  
In a blue papoose  
You got a razor fine you too  
You got a razor fine you too

You've gotta know  
I got a life with you  
You gotta see the wall  
I wrote a life with you  
You got a razor fine you too  
I got a simple plan for you

## 2. FOLD

Sentimental  
Get away  
Judgmental  
Here to stay  
Grin it in us  
Grin and fine  
Sentimental  
Cone of mind

You don't mind  
The final solution  
You can't find  
A stable conclusion  
Follow through  
Is not the answer  
Discarding the truth  
Is not the answer

Incremental  
Body type  
Ostentation  
Hunger ripe  
Sentimental  
Only days  
Sentimental  
Count the days

You sinners, can't you see  
What the big ones, let me be  
Yes you sinners, what you see

Oh you miserable sinners in reading  
Oh you miserable sinners in days  
Oh you miserable sinners every way

### 3. SUPINE

Feel the feeler  
Coming on  
I see the day is long  
And the night is never gone  
I got woes to be sure  
I feel the nails that are tearing my hair out  
And all alone  
Feel a breeze  
I feel a fire  
I hear them laughing at me  
As I rise with desire  
Coming home  
Leave me there  
I cannot find everything that I see  
And I leave it there

#### 4. BLEEDER

Is real oblations  
Another way  
Open contusions  
Open away  
Occult inclusion  
Open by day  
It's a stick implosions  
By hook or race

The lack misery  
For a new place  
They call this heaven  
This brand new place  
I see an angel  
Is at the gates  
I see a demon  
Directing fate

## 5. FREEZE

I cannot stay awake  
For all those purple babies  
All those words are waste  
And I don't know what lead can do  
Cannot stay for long  
Before the perfect babies  
And every time I do  
One eye open another shut

I cannot be amazed  
From all the simple pleasures  
I cannot make the space  
For all the toys I left behind

I cannot be amused  
When all my toys have left me  
I'm all alone  
If all my toys have gone away  
I cannot stand and weep  
And all my cars have left me  
I won't be sad to see  
If they are weeping, weeping too

## 6. MIST

I have nothing at stake  
Following balloon it make

Crying for a secret  
I'm crying for a secret love  
Crying for a secret  
I'm crying for a secret lover now

I have nothing at stake  
Following balloon it make

Crying for a secret  
I'm crying for a secret love  
Crying for a secret  
I'm crying for a secret lover now

## 7. MONOLITH

Our love is over  
It's gone for good  
Is nothing sacred  
It's gone for good  
Is nothing sacred  
It's gone away  
Our love is gone  
Our love is waste  
The party's over  
The pain this way

## 8. WRISTS

It's a false sense  
Of security  
It's a bald man  
With insecurity  
I don't want to wait another time  
Forever for you  
I don't want to have another time  
Away so much from you  
I don't want to leave the comfort  
Of another night from you  
You'll be lonely too  
You don't want me to

In a lonely time  
In a stagnant place  
I'm the bald man  
In a hairless race  
I don't want to face an old life  
Alone without a mate  
I don't want to be alone again  
And live another space  
I don't want to have to slit my wrists  
To bleed all over place  
You'll be lonely too  
You don't want me to

## 9. MOSS

Based on the rhythm of the holy saints  
In praise of world and fallen minds  
Based on a lady with a holy halo  
And magic on a rise

Come to the circus of the holy saints  
At the confessional to hear the show  
At grievous kitchen and you'll stop the show  
With the blinking of an eye

Breaking of bread as you break my back  
Taste such a follicle of early wine  
Praise be to Allah  
In a symbiotic tracking line

Finding marks in the back of the knee  
Hiding the sores of a thousand lines  
Following Madonna as she takes the silver  
Spoon from under wire

## 10. POMEGRANATE

Save our music  
Faceless angels  
Dancing in time  
Fight temptation  
Save the poet  
Breathe in to time  
Dreams of mystics  
Curtsy lovely  
Do it in time  
Gracious angels  
Spawn the weeping  
Time after time

Grave in time  
I speak in time

## 11. TUNDRA

Can I see it there  
A policy of scorched on earth  
Can I feel and stare  
A man with nothing there  
I don't realize  
The picture of a man is gone  
To be realized  
Forgiveness is a policy

Is the light so dim  
A moth cannot be drawn to it  
Is betrayal there  
To be a desperate monolith  
Living is so cold  
A tundra of a permafrost  
Flying lower now  
You took my feet from under me

## 12. VEILED

The finer things in life  
Have past me by I think forever  
I haven't made my choice  
To try to rectify behavior  
Finer things in world  
Have even times begun to waver  
And every time I noise  
Upon the grief of loss forever now

The choices were my own  
The sinister approach was even  
Tempered by the style  
Of which a different number tethered  
Every time I smile  
Upon a bird without a feather  
Heaven would be vile  
And hell would place a lien upon me now
