

## THE BIRTH OF SILENCE

### 1. ABLE BODY

With a step in time  
And I see your face  
Doesn't really mind  
Gonna win that race  
Gonna learn my way  
Gonna hear him call  
Gonna ride in vain  
Gonna ride and fall

Gonna ride this fate  
Gonna hear him call  
Gonna pick my fate  
Gonna do it all  
If I find my way  
If he sees my kind  
Gonna ride away  
Gonna leave this one horse town

Ride my rail  
Ride my rail

Get along grey day  
Get along their knees  
Take another look  
At another way  
Well I'm on my way  
To another place  
To another sea  
To a long long time away

Ride my rail  
Ride my rail

## 2. BARK

You say that I am nothing but unreasonable  
You say that I am only finding peace  
The walls are covered inside out with horrible  
The walls are covered inside out with peace

I see the light and it is the beginning  
I end and know it's nothing I should fear  
I feel the walls enclosing in upon me  
The end is come, I think I feel it dear

You wonder why I feel it's something  
You wonder why I feel it coming near  
I see a pattern that is now expanding  
Expanding all the light that you see near

### 3. CRASH COURSE

Crash course in a hallowed day all along the way  
Crash course for a rolling thunder in a teapot day  
Crash course for a wonder wind  
I haven't time cause I'm coming in  
I know in another way I haven't time  
Haven't come to stay  
Anyway, anyway

Crash course in the hallowed way  
And I haven't time to be a man and say  
I know from another day  
I haven't time, haven't time to stay  
Anyway, anyway, anyway

Crash course in a hallowed day all along the way  
Crash course for a rolling thunder in a teapot day  
Crash course for a wonder wind  
I haven't time cause I'm coming in  
I know in another way I haven't time  
Haven't come to stay  
Anyway, anyway

Crash course in the hallowed way  
And I haven't time to be a man and say  
I know from another day  
I haven't time, haven't time to stay  
Anyway, anyway, anyway

#### 4. DEAD ZONE

Seek another window, seek another pain  
Find another window, and nothing will remain  
Find another doorway, open it to see  
Have another way to go, you will find it there  
Seek another window, keep it from the rain  
See yourself from heaven there, free from all the pain  
Have another window, have another way  
See the walls are closing in, I'll plug it in again

Seek another truth now, to ending it is near  
Seek another entrance, find an easier way  
You must grin and bear it, here it comes again  
Seek another window, to verify the end  
Pity not the soldier, that never sees the end  
Pity not the accident, they never see the end  
Raise a glass to mortals, drink up for the end  
Destiny is calling us to find a door again

Seek another window, seek another pain  
Find another window, and nothing will remain  
Find another doorway, open it to see  
Have another way to go, you will find it there  
Seek another window, keep it from the rain  
See yourself from heaven there, free from all the pain  
Have another window, have another way  
See the walls are closing in, I'll plug it in today

## 5. FINNEGAN

Precious time  
In a world without it singing  
It is precious time  
Hear the bells there are ringing  
It is precious time  
In the days of bygone  
There are a precious time  
The days of my youth they are gone

Precious time  
As I walk along the waters  
Of the precious time  
You will see it in the corners of  
The precious time  
Can you feel all the lives are changing  
Precious time  
As you see the tide is changing in the sea

Oh precious time  
See the coward hiding in the cupboard  
Precious time  
Will I die in a moment  
Without precious time  
With the weight of a sinker falling  
Precious time  
Is returning to the bottom of the sea

## 6. HOUND'S TOOTH

True is not the same for everyone  
Mechanized and all of us will come  
True is not the same as me  
Riding chariots you see  
Riding not the same for you and me

True is not the same for flesh and blood  
Time is up like no one in the flood  
Everyone can come and be  
When a man eternity  
True is not the same for everyone

Ending lives among us every day  
Dying isn't all it's cracked to be  
Follow life into the grave  
Every soul a soul to save  
Meeting God is not for everyone

See the end you feel a bit of fear  
Catch a fever of the end is near  
Age is creeping up on us  
Like a ghostly school bus  
Ending is among us every day

## 7. HUNTER'S FAITH

Cleave on satellite

Cleave on satellite

Every life is following now, every life is vain  
You will see the shadows falling like the tumbling rain  
Mind upon the abolition going on in time  
Oh I hear the voice say everything is never mine

Cleave on satellite

Cleave on satellite

All the others following me, every angle take  
To explore the possibility of eternal days  
Molotov is gone away and every bomb is mine  
Swollen eyes and swollen faces separate with time

Cleave on satellite

Cleave on satellite

Catastrophic memories are just that or so it seems  
Danger done to satisfy is always in a dream  
Lives are cursed with joy and tempered with the grace of hell  
Simple are now forgiven, only time will tell

Cleave on satellite

Cleave on satellite

## 8. KEYLESS

Gush upon  
In a Poland disappearing act  
Genocide  
In a Poland disappearing act  
Can you see  
With the lights upon the wall instead  
Does it men  
That you have another chemistry

Gaze upon  
And you see another recipe  
Gain a land  
In a blitzkrieg disappearing act  
Everyone  
Rise upon a destiny  
Everyone  
Sees a man behind a door

In desperation  
Unholy times  
Decapitation  
Of holy times

Gaze upon  
In a Poland disappearing act  
Gain a land  
In a Poland disappearing act  
Can you see  
Rise upon the destiny  
Does it men  
See a man behind the door

In desperation  
Unholy times  
Decapitation  
Of holy times

The greatest thing in life  
Is not be bad among the good  
The greatest thing in life

## 10. STROMBOLI

Greatest thing, in my life  
See a con, in my life  
Oh hey  
Find yourself, in a world  
Nothing had, in that world  
Oh hey

Decadence, in my life  
Never feel, never right  
Oh hey  
Right yourself, like a ship  
Venomous, nasty trip  
Oh hey

## 11. ZEBRA

Get away and find with another taste now  
Symbiosis grind and a finished day now  
And the animals haven't got a clue now  
Toward the end of days we have got the news now  
Sinners wave and beg for the grace of God now  
Open up the gates for a simple man now

A simple daze of falling down in reason  
A simple daze of falling down in reason  
Charity begins at home you reason  
Charity begins inside your reason

Get away and find with another taste now  
Symbiosis grind and a finished day now  
And the animals haven't got a clue now  
Toward the end of days we have got the news now  
Sinners wave and beg for the grace of God now  
Open up the gates for a simple man now
