1. ATTEMPT THE ENTRY

Reach until sweeter smile  
Enter slowly into heaven in a while  
Take me home cooling rain  
Get along into the fire, it remains

This should be sweet and safe to say dock  
You want the hunger like a chute of a hard fuck

Be a blind over me  
Will you wrap yourself around my ecstasy  
Force of swell enters in  
Open up your yearning wings with sacred skin

This should be sweet and safe to say dock  
You want the hunger like a chute of a hard fuck

Swollen cats  
It's a mystery  
Holding time  
It's a comedy  
Lonely deed  
It's a never end  
Warm inside  
Where the cold has died

Reach until sweeter smile  
Enter slowly into heaven in a while

This should be sweet and safe to say dock  
You want the hunger like a chute of a hard fuck

Swollen cats  
It's a mystery  
Holding time  
It's a comedy  
Lonely deed  
It's a never end  
Warm inside  
Where the cold has died

## 2. BEEF

Attempt the spirit  
I don't mind  
You see the lonely have an interest  
I don't mind  
I've fallen on an end  
You see me  
And with a world that's out of hand  
All the screaming

Take it in the bayou  
It's suddenly pain  
Take it in the bayou  
Come and see my face  
Living in the window  
Heaven sent the pane

Corrupt the silence  
I don't mind  
Command a solitary whimper  
I don't mind  
I'm calling out your name  
Please hear me  
Instead of charging into reason  
I am dreaming

Take it in the bayou  
It's suddenly pain  
Take it in the bayou  
Come and see my face  
Living in the window  
Heaven sent the pane

### 3. BOTH SIDES

It's cheap on the go

It's a little bit trip to heaven

It's a little bit golden down in heaven

#### 4. CANNOT SHOOT

Send up balloons, they're falling down  
She followed them  
The scent of displeasure intolerant  
She followed him  
In bits and pieces

Think me isolates  
Trust amusing  
Bolt was justified  
Haven't reason  
Be another one  
Cannot shoot it  
Be another one  
Cannot shoot it

Did capture the way she looked at him  
To wait for it  
The sign of a fire lay dying there  
In bitterness  
He cannot believe it

Grand anticipate  
Not forthcoming  
Just a shrinking line  
Moving backwards  
Use another way  
Cannot shoot it  
Try another day  
Cannot shoot it

Think me isolates  
Trust amusing  
Bolt was justified  
Haven't reason  
Be another one  
Cannot shoot it  
Be another one  
Cannot shoot it

## 5. DELIGHT

These aggressive starts  
We are libertines  
To see the rise  
To reel it home

Face all times

With a crack all for sinister  
With a crack oh you sinister

You blind yourself  
To see this mind  
A fallen grace  
All in due time  
Roll down your face  
The tear is mine

It's a precious thought  
To carry peace  
False scenery is bare  
Not satisfy

With a crack all for sinister  
With a crack oh you sinister

## 6. IS SUPERB

Crystallize and superb  
Facialize and why not  
Digitize by all means  
Fantasize have you seen

Traumatize with one word  
Canonize as you burn  
Specialize in my pain  
Finalize and be gone

## 7. LOOKS LIKE PEACH

We own this town down to its' signs  
Pulling ancient temples away  
Flesh is just a symbol for love there  
Longing to deliver you its' pain

You take it like a man  
Falling down like rain

Contagious  
In manners  
In millions  
Contagious  
In hundreds  
In millions

Peacetime brings the sight of softly grown  
Feeling like a mound of supple air  
Folding in and under timid halo  
See the mighty jewel hidden there

You take it like a man  
Falling down like rain

Contagious  
In manners  
In millions  
Contagious  
In hundreds  
In millions

## 8. LUBE

Follow with the disappearing  
Get inside a motion Regis  
Dead I see the Mona Lisa  
Get inside the Berlin house

I cannot hide  
I cannot hear  
Adopted hell  
I cannot see  
A tattered pall  
I cannot see

Sable coated with elixir  
Genocide the moment passes  
Trouble when I push into you  
Better find another way

I cannot climb  
Another queer  
Without a tube  
Of something clear  
I cannot slide  
I cannot see

## 9. TASTE NOT TRIM

Victorious and as an insurgent  
I came upon this place  
This place I have dreamed of in my mind  
There was an air  
Like a festoon  
Gleaning sunlight  
Taking danger  
Taking danger  
Unkempt as it was at that age

Who's on the edge of the world  
Who's on the edge

## 10. THROB

Catch a man with a blind cyst  
Harbored at a dead stone  
Jump when you hear this knell  
Bend those entrails  
Final fiendish hag  
Beg behind a rock  
Who concedes this cock  
It comes out a drop

Fist of mine is covered in a rainstorm  
Cheese Whiz there I saw it as a minstrel  
Bide my time a cherry as a thespian  
Darker times and an elevated henchman

You seem to be my kind of feast, Dad  
Indeed I haven't seen the beast, Dad  
So change into a vulgar beast, Dad

I show indifference  
Amazing too  
We see it rising  
I know it's you  
Drawn for the maker  
Under your thumb  
Just give it to me  
See me

Grab the sword anticipate the entry  
Swollen tight obedience the sentry  
Undulate the hole of subjugation  
Pulsing with a young ejaculation

You seem to be my kind of feast, Dad  
Indeed I haven't seen the beast, Dad  
So change into a vulgar beast, Dad

I call you master  
I follow you  
You leave it open  
You want it too  
The noose is tightening  
The lust of some  
Just give it to me  
See me

## 11. TIME FOR TWIST

Blue reason  
Takes an attitude  
Through reasons  
Calm your attitude  
Blue reason  
Get the attitude  
Blue reason

Crack of the fist wins  
Mystery  
A cock in your new wounds  
Charity  
On top of a sin juice  
Clarity  
A pirate to mount you  
Victory

Of peasant  
Takes an attitude  
In treason  
Get an attitude  
Blue reason  
Get the attitude  
Blue reason

Come the sword of an empire  
Chastity  
In the garb of a goddess  
Purity  
And the soft of a healer  
Empathy  
To the tack of a warrior  
Blasphemy

Blue reason  
Takes an attitude  
Through reasons  
Calm your attitude

## 12. TORN BETWEEN

View my legs  
Feel my strong  
Come to me  
Say it's wrong  
Feeling weak  
Holding time  
Feed me real  
Feed me real

I guess I'm not sorry for it  
You sibyl  
I guess in the end I'm sorry for it  
Deeper eyes

See the wind remain  
See the wind remains there

Chew my legs  
Offer slain  
Not the same  
Man or wife  
Issue in  
Either one  
Keep me real  
Feed me real

Did you say you're sorry for it  
Did you see them  
Down inside it's going for it  
Deep as ice

See the wind remain  
See the wind remains there

### 13. WIDE AND WIDER

It's not the same as it is  
But then cannot complain in the angels  
Sleep flies to follow me now  
Indeed and everything comes from the angels  
In truth sadness is being  
Move on and call it the voice of angels

Vice wine and all of the needs  
Be shy but show me the sigh of angels  
Lie still to let it all in  
We share the energy light of the angels  
Is this discover of peace  
Please bring the breath of release my angel
