

## YELLOW ME

### 1.A FABULOUS BURN

You play dead in seminal ways  
You fall hurt in so many days  
All is mine, all is me  
Everybody's happy with a striking sea  
You and me, we go down  
Just a sample of a dead man's town  
Come to me, come to see  
Everything comes to victory

You are dead for me and mine  
Tasting a blood taken for wine  
Follow through in testament  
Carry down to the riverside mud  
Far below and up above  
Teeth are shattered with a bit of love  
Crimes of hate, sentence true  
Everybody sticks like a tube of glue

A fabulous burn in a city of rain  
A fabulous burn in city of rain

Rest of mine, cannonball drive  
Instant abuse will find you alive  
Now get down upon your knees  
Sinister bandits hear your pleas  
Supple in living a dream  
Take a prisoner inside his frame  
Find it tough to live this life  
Generate missions of a carving knife

## 2. EXACTO

Shake a giant mind behind us  
Do it right to make it easy  
Slowing down the night adventure  
Tearing down the holy reasons  
Holding now a wall of anger  
Arms around a suffering misfit  
Shake it off it's all behind us  
Make out like it's all but reasoning  
Oh reasoning  
Oh reasoning

Rain, heavy rain  
Future carries on  
Tie us down again

Lift your arms around my body  
Wish the world would come to order  
Pacify the strength within me  
Summoning awake and wonder  
Wipe those tears are running under  
Eyes of glass that look asunder  
Please forgive me if I haven't  
Given you the things that you deserve  
That you deserve  
That you deserve

Rain, heavy rain  
Future carries on  
Tie us down again

### 3. FORTITUDE CUTS

Cradle vice  
In season ten  
Shake your taste  
For suffering  
Grim my face  
In low down way  
Claws in time  
In a darkened day

Steps right off  
From a precipice  
Don't you find  
Every day is this  
Grip my waist  
In a hostile fight  
Save the day  
For the one tonight

How I wish  
For a placid state  
Rules adjust  
To a different fate  
Picking up  
A battered knife  
Want that peace  
A stable life

#### 4. KEEPERS

Well I wake up in the morning  
And I find myself alone  
You are sleeping right there next to me  
But I find myself alone  
And I wallow in the winter  
Of a love that's gone away  
Just a sense of desperation  
Taking hold of me today

Going down the road again  
Going down the lonely road again

Wake every day  
See with a precious time  
Please till the soil  
Come to me precious time

When I come back in the nighttime  
And I see that you're not there  
It's a cut into the dermal  
It's a gasping of the air  
And I wait into the evening  
For the closing of the door  
And I wait until the sound of silence  
Speaks to me no more

Going down the road again  
Going down the lonely road again

Wake every day  
See with a precious time  
Please till the soil  
Come to me precious time

## 5. LONGER

Call it into witch  
Feel the same  
Cause the feeling of the wicked is not there  
Pulling down to it  
Feel the same  
It's a Molotov of witches in the air

And it seems about you  
What a waste  
If you see the walls exploding at the seams  
Find another reason to  
Add advice  
It's another world where everyone is nice

Take an ice tag  
Fall like rain  
Grab my face  
Feeling no pain  
Jam my wreck  
See no blood  
Shine no more  
You demigod Ra

Keep it won't kiss me  
Catch me if you can  
Checking all the windows  
Jack me when I turn  
Posing on the balcony  
Forcing all you do  
Fornicating memories  
Hit me when you do

Take an ice tag  
Fall like rain  
Grab my face  
Feeling no pain  
Jam my wreck  
See no blood  
Shine no more  
You demigod Ra

## 6. MALICIOUS

Feel tight  
All in pain  
Feels right  
Simple gain  
Right mind  
I'm in waves  
Feel tight  
Longer haze

Feels right  
All in rage  
So tight  
I'm insane  
My mind  
Heavy ways  
Not right  
Now is glaze

## 7. NETHER BE

Crazy love all of mine is  
Reminds me of the fallen time  
Shepherds low all is blowing  
Shepherds of a losing time

I'm falling down in the summer time  
With the strength of a bear  
We reach the point where the waste of time  
Has enormous cost to wear  
You will see the shadow there  
That's longer as it remains  
All is gone in summertime  
But the sounds of falling rain

You kiss the rolling lover's eyebrow  
This smacks of just another nuisance  
An act of patronizing symbol  
I feel the righteous indignation  
Follow this pattern of existence  
Sometimes you see the tracks of patience  
Can be I find another lover  
Call in to find another mystery

Crazy time as the sun sets  
Following after you  
Destiny is an asset  
Shepherds of something new

Reaching out for a simple love  
With an angle of despair  
Take the face of a happy time  
And you turn it to a mine  
Raising doubts of the time we spent  
And the way you let it go  
I wonder what it could have been  
If the stars had just aligned

You kiss the rolling lover's eyebrow  
This smacks of just another nuisance  
An act of patronizing symbol  
I feel the righteous indignation  
Follow this pattern of existence  
Sometimes you see the tracks of patience  
Can be I find another lover  
Call in to find another mystery

## 8. ROSEWOOD

We're Superman  
He's in the band  
Collisioning

Sit around and fain another round of days  
Another round of ways  
Another one  
Sit around and play on another lonely day  
And following the wars  
Of extremity  
Waiting isn't true when a sense of one is you  
And something isn't right  
In the universe  
Crying isn't right in the tapestry of night  
If the fortune isn't here  
For the solitude

We're Superman  
He's in the band  
Collisioning

Feeling that the world hasn't heard the very word  
That the band begins to play  
At the start of it  
Words begin to sing as the playing starts to ring  
And the band begins again  
From a point of view  
Instance now arrive and the sound is now alive  
For the preacher in the house  
As it empties out  
Lay it on the line make it simple every time  
Make it easy to prepare  
For the chemistry

We're Superman  
He's in the band  
Collisioning

## 9. TENDRIL

Clean all gone with the hammer down  
Like a battering ram, like a battering ram  
Blast that wall with an iron fist  
Like a battering ram, like a battering ram  
We don't want just to have it sick  
Like a battering ram, like a battering ram  
Why don't you find other ways  
Like a battering ram, like a battering ram

Teaching well  
Forward face  
Find another welcome nation  
There's the door  
Go away  
On your knees in sublimation  
Even though  
Knowledge waits  
Dress up in a lower station  
Wear it well  
Supplicate  
Attitude an indication

Break my back with a steely grin  
With a battering ram, with a battering ram  
Save yourself for a lizard man  
With a battering ram, with a battering ram  
Cheat your sense of integrity  
Like a battering ram, like a battering ram  
Walk yourself right out of here  
Like a battering ram, like a battering ram

Teaching well  
Forward face  
Find another welcome nation  
There's the door  
Go away  
On your knees in sublimation  
Even though  
Knowledge waits  
Dress up in a lower station  
Wear it well  
Supplicate  
Attitude an indication

## 10. THE RAISONETTE

The reason by the way  
Forever speaks the wind  
Can send you in the mind  
For liberty is not kind

The reasons for leaving are wrong  
The parting is nigh upon long

Wait on the sun ere we leave  
Wait on the sun ere we bleed

The phases of the moon  
Are the rituals that you use  
The meaning of the sun  
Forsaken and abused

The middle of time has it's space  
The ravings of love have it's place

Wait on the sun ere we leave  
Wait on the sun ere we bleed

## 11. THUMB OF DEMAND

Faces weigh  
Gone in windows  
Crazy ways  
Go away  
Going sense  
Was my wisdom  
Reason dance  
Go away

Grateful eye hegemony  
Grateful eyes in war  
Suicide is harmony  
Feeling sleep no more  
Sham romance was heavenly  
Palace in the stars  
Feeling now in heavenly  
Won't come back no more

Faces weigh  
Gone in windows  
Crazy ways  
Go away  
Going sense  
Was my wisdom  
Reason dance  
Go away
