

ZEBRAS OF MINE

1. BASTION

Life is a golden sea
You find a message from me
Reason that life is hard
Lonely, a satellite

Only a lazy calm is truly
Foam of a reason and it's only
One of a million lives that have to be

Find the man to be
See the humanity
Spaces of world without
You see incredible tales

Only a lazy calm is truly
Foam of a reason and it's only
One of a million lives that have to be

See the lonely face
Chemistry all late
Follows in a mind of it's own
Treasure I am safe
You will see me face
Up a mountain mind of it's own

Life is a golden sea
You find a message from me
Reason that life is hard
Lonely, a satellite

2. CLINICAL

You cry alone, you slowly change
Conditions right, a choice is made
I see you wait, the growing day
You cry alone, you cry in vain

Eyes in front
Feel insane
Shake my back
Shake my brain
To the mat
Kind of waste
Don't do that
Leave with haste

A seasons gone, for temperate ways
Conditions wrong, to see the play

Eyes in front
Feel insane
Shake my back
Shake my brain
To the mat
Kind of waste
Don't do that
Leave with haste

A flame in sound, and nothing wrong
With several there, and searching me
For feelings gone, for simple times
A mystery hound, a cry, a wreck

Eyes in front
Feel insane
Shake my back
Shake my brain
To the mat
Kind of waste
Don't do that
Leave with haste

3. COLLAPSING

Mind it isn't time
To fall upon the sword
Chemistry is right
To halt the gathered storm
Marvelous was gone
Into a deeper bay
Evil that is strong
In many other ways

Cease collapsing

Marching are the troops
To satisfy the crowd
Intensify the speed
Of laughing at the loud
Hold yourself above
Instead of caving in
To speakers of the book
The ravings of insane

Cease collapsing

Can you stop the river from collapsing
Grievous on the banks I am collapsing
Jesus Christ is all but now collapsing
Men are telling me it's all collapsing

You say that
Fall in
Can't find it
Fall in
No reason
Fall in
Catch menace
Fall in
Be obey

4. GRANITE

Crazy minds
Catapult the pavement
Show your face
Optics are the caveins
Realize
Nothing soft in neighbors
Cannonballs
Nothing stops the crowd
Real life
Nothing there but grizzlies
Fall in
You will see the firefight
Realize
Nothing heats a demon
Realize
Nothing stops the heat

Feel it out
A sense of beats of actions
Stabilize
Your misery and need
Molotov
You will see the action
Redefine
You will feel the greed
Attitude
Someone takes the vision
Take it once
Middle of the stairs
Realize
Motor emulation
Motor emulation

5. LAME

Laser in the sun
Find it everyone
Mine in every wonder, every history now

Cradle in my mind
Follow in it's time
Feast upon your name
Gathering the gain
Sentimental, every journey is a window

Change of images you see
Walls are down among the earth

Falling into time
Save the man from all
Crave the stupid undercarriage of a measure

Numerality
Total sense of being
Brave a stick of wood
Beat it if you could
Listen hard for any morsel of a daydream

6. MISTRUST

Follow every summer and then wallow in the mess
Follow every misery and intimacy pain
You will see the comfort in the middle of the fire
Then to gather instincts if the rivers come again

Catch my bones
In a little way
Feel my pains
For another day
Tease my wrists
In another world
Find in half
In another world
Give my wrist
Give my reign
Give my toes
For another pain

Sunset over desert of a mind that's in a haze
Flocks of time insipid like the winner of a race
Cannot feel the stinging of the needle as it spires
Cannot mend the fabric of morality of lust

7. NAILS

Take yourself among the world of walls into the vein
You will see another one into a golden age
A violent moment
A temperate rain
Come learn a lesson or you'll wallow in the pain

The craft is never that easy
To be that wiser today
Unsung to more isn't easy
Final solution today

Cast self as beggars all the wall into the vein
You see another one in something golden aim
You violent moment you wild vein
Come live the other side, you're rolling in the pain

The craft is never that easy
To be that wiser today
Unsung to more isn't easy
Final solution today

8. PUNCTURE

Lies all insane in heaven
Light is all in gold with legions
Follow my insane with riddles
Following a maze in regions

Giving up a testament of waves
Truth is just a manifest of goals
Giving to a vision of the reigns
Going inside off the living beings
Rolling down the hills of every grave

Puncture me
Save a flight
Torrid sea
Casting night
Saving me
Enter light

Kiss is right, call in time
Seaside, calling all is mine
Kiss is right, she sinned
Get in line, call them all in time
Can arrive, can you say
Head of mine, calling all your wine
Get a walls, crack the sky
Mutilate, holiday in mind

Images of space are bending
Image of a man is melting
Life is only once when captured
Life is just a field of hallow

Rising up like plankton in a mind
Foresters have nothing left to save
Danger is the attitude of man
Danger is the longitude of men
Follow in the attitude of grace

Pucture me
Save a flight
Torrid sea
Casting night
Saving me
Enter light

Kiss is right, call in time
Seaside, calling all is mine
Kiss is right, she sinned
Get in line, call them all in time

9. REVEALED

I got a window
Fading in time
I'm going to sit beside the window, it's mine
I got an army
Facing outside
I see it roll along the fields, keeping time, keeping my head down

There is a rescue
Our of the fire
It's gonna burn the face of devils in time
I gotta message growing inside
I hear the sound of guns and howitzers blowing up, blowing on my mind

10. RINCON

Rest my knife
Into the eyes of life
Kiss my life
Into the point of knife
You will take
My sentiment in hands
You will force
A dagger in my hand

The face of life

Walling in the feelings of His Holiness in main
You will see the misery of my hand and then repay
Calling out the regal and there's calling out in name
Shepherds all in rolling town and calling down to say

Keep that face
Upon a simple core
State of grace
The messenger no more
Crave a spell
Of numerality
Genuflect of bestiality

The face of life

Walling in the feelings of His Holiness in main
You will see the misery of my hand and then repay
Calling out the regal and there's calling out in name
Shepherds all in rolling town and calling down to say

11. STRIKE

You won't mind if I have all the seed
Check it down and follow world to be
You see world is dead
Rolling down with mist
Bowling down the world with rougher seas

Camouflage is drowning out the mind
Over anxious pleasures of your kind
You see anger kill
Stomach of a thrill
Cannot bend the metal of a thread

Strike
You mock them

Strike
You mock them

12. WELL

The road is simple
You'll find a way
You'll find it simple
You'll find a way

Hold it, Shiva says
Got to feel that peace of mind
Be that, good way
Got to feel that peace of mind

Rolling

The road is simple
You'll find a way
You'll find it simple
You'll find a way

Seasons, coming
Got to be a peace of mind
Love is coming
Got to see that peace of mind

Rolling
